

ABOUT DR. PAULA'S SKINCARE

I developed Dr. Paula's Skin Care with the same passion that I approach my life's mission to help people. My goal is to offer you a premium alternative to the "as seen on TV" drugstore approach products that simply do NOT get the job done. My skincare products are very effective and targeted to treat your specific issues such as acne, hyper pigmentation, wrinkles and fine lines. If you are tired of spending money on multiple products that don't do justice to your beautiful skin it is time to make a change for good.

100% of all profits help fund medical care where my team of health care providers and I travel to desperately impoverished areas such as Africa, Haiti and Nepal. On my mission to Haiti I wondered if God had forgotten them but I was told there is a saying there that "God gives but people share".

Each time you make a purchase for a skincare product you make a choice. You can choose to buy my products that come with a free consultation and the strongest 100% satisfaction guarantee in the skincare business and help fund essential mission work, or you can buy products from a giant for profit corporation that offers much less.
